

Remarks

The Examiner is thanked for the Official Action mailed December 16, 2004. This Request for Reconsideration is intended to be fully responsive to the Official Action.

In the Official Action, claims 1-42 of the current application were rejected under the judicially created doctrine of obvious-type double patenting over claims 1-19 of U.S. Patent 6,479,003 to Furgieuele et al ("Furgieuele").

In the rejection, the Examiner indicated that the rejection could be overcome by a terminal disclaimer filed in compliance with 37 CFR 1.321(c) provided that the conflicting application or patent is shown to be commonly owned with the current application.

Attached to this Response is a Terminal Disclaimer to Obviate a Double Patenting Rejection Over a Prior Art Patent (US PTO Form PTO/SB/26). The form identifies Northwestern University as the owner of the subject application and the prior art Furgieuele patent.

As evidence of the stated assignments, an assignment document (Notice of Recordation of Assignment) is attached designating Northwestern University as the current invention's assignee. The first page of the Furgieuele patent is also attached. The attached Furgieuele page indicates that Northwestern University is also the assignee of the Furgieuele patent.

It is respectfully submitted that the attached Terminal Disclaimer and associated documentation place the above-identified application in condition for allowance. Should the Examiner believe that additional discussion would advance the prosecution of the present invention she is encouraged to contact the undersigned at the phone number listed below. A check for additional fees is included with this submission. If the amount of the check is insufficient to cover the fees, then please debit Account No. 50-0548 and notify the undersigned.

Respectfully submitted,
